Curriculum Features

Let Enlightium Academy release the wonder of learning in our accredited online school with these exciting AOP Ignitia Online features:

Anytime Access
Ignitia curriculum allows students and educators 24/7 access from anywhere in the world with an Internet connection. Create unique online or virtual classrooms that support achievement.

Flexible Custom Course Editor and Threshold Setting
Ignitia allows teachers to create, share, and adapt courses to support differentiated learning, stimulate critical thinking, and enrich the classroom experience for every student. Add content, alter the pace and pass threshold, or add new content to meet diverse classroom needs.

Intuitive, Easy-to-use Interface
The look and feel of Ignitia facilitates navigation and guides users seamlessly through the curriculum, communication tools, and administrative applications.

Progressive School-year Scheduling and Lesson Planning

Dynamic scheduling and rescheduling allow administrators to globally manage school schedules for multiple terms. Automatic updates make it easy for students to stay on track.

Advanced Administrative and Teacher Control

Teachers and administrators have various options for determining staff and student access, student assignments, and pass thresholds for increased flexibility and security.

Prescriptive Credit Recovery

Diagnostic testing in language arts and math allows teachers to identify content areas in which students need review, so students who previously failed a course can recover the credits they need to graduate without repeating the entire course.

Automatic Grading

The majority of student work is automatically graded with Ignitia. Students receive instant feedback, and data is stored for later reporting with this practical, timesaving feature.

Real-time Curriculum Updates

With real-time curriculum updates, students always have the most up-to-date content, and teachers don't have to worry about making changes or corrections.

Multiple Teacher Settings

With this convenient feature, administrators can give teachers three different levels of authority over all program features and student data.

Built-in Global Calendar

This useful, customizable tool keeps everyone informed and updates automatically when changes are made. Events can be added, removed, or modified with ease and school work is automatically re-generated to the new dates.

Data Management and Reporting Tools

Ignitia easily creates reports for students, teachers, administrators, and parents, supporting to student learning and academic success. Administrators and teachers can review student grades, progress, lesson plans, and action items on demand.

Message Center

Designed to facilitate the flow of information and enrich the learning experience both inside and outside a specific course, Ignitia's message center helps to enable effective communication among all users.

Assignment Screens

Students get a consolidated view of daily assignments, curriculum overviews, due dates, subject reviews, and grades with this organizational feature geared to keep them on track. Teacher assignment screens allow them to edit, add, remove, or reorder assignments, as well as change due dates of projects and tasks to pace coursework appropriately or according to individualized learning plans.

Media-rich Learning

More than 50,000 multimedia elements including audio and video files, challenging games, interactive exercises, a historical timeline, and integrated video clips reinforce concepts and offer in depth explanation of key points.

Student Mode

This feature allows students to view presentations, answer lesson questions in and out of sequence, and record notes and questions with an electronic notepad.

Book Reports

Enriching book reports introduce a variety of genres, annotated book lists, and links to additional literary resources.

Text Translation Tool

With our text translation tool, lesson text can be translated into eight different languages including Spanish, French, German, Korean, Japanese, Russian, simplified Chinese, and traditional Chinese.

Text-to-Speech

This user-friendly application allows students to hear selected passages or entire lessons to promote greater understanding by simply highlighting the text within the lesson.

Strong, Reliable Security Safeguards

Role-based access controls, automatic expiration, and other security features enforce and support a credible learning experience.

Useful Tools

Ignitia includes a reference tool, a feedback tool, and a support link

to help students learn and encourage them to take responsibility for their own education.

Integrated Web Links
Ignitia includes optional web links that reference primary sources and relevant information associated with the lessons that inject historical and global perspectives and encourage self-directed learning.

Printing Options
Convert on-screen information to the printed page with flexible printing options. Students and teachers can print entire assignments, lessons, vocabulary lists, problems, and records.

Ignitia Updates
Dynamic and flexible, Ignitia is continually updated, ensuring teachers and students in your Christian school receive the latest in state-of-the-art tools and the most current improvements.

Smart Search and Filtering Functions
Relevant data can be quickly retrieved from targeted lists to increase efficiency and simplify reporting.
