

Stay Connected - Diamond Program!

Dear Family,

Welcome to the Diamond Support level at Enlightium Academy! We here at Enlightium Academy look forward to working one-on-one with your student throughout this year, and your student will be receiving priority support during each school day. We also look forward to working with you to develop an individualized support plan that meets the needs of your student.

One of the greatest benefits of Diamond Support is that your student can call his or her teacher at any time during the school day. Enlightium Academy's teachers are happy to address questions students may have about the lessons or the homework assignments. In addition to speaking with teachers over the phone, students are also able to take advantage of a feature called screen sharing. For example, if a student does not know how to complete a certain type of math problem, the teacher can share a screen with the student and demonstrate how to find the answer. Within this program, students also have the ability to write on the screen with the teacher, which ensures personalized instruction that addresses the student's individual needs.

In addition to these great features, students and parents can also take advantage of the following benefits:

- Answers to Help Questions within 60 minutes during school hours (8am– 4pm PST)
- Customized projects that match the student's learning style and address the student's needs - academic, required materials, etc.
- Ongoing review of students' progress via our gradebook, to assess the students' needs
- Detailed feedback from teachers on essays
- Teachers' availability for student by webcam, phone, messaging, and email
- Parents' ability to schedule conferences with teachers at any time during the year

We hope that you and your child will take advantage of all of these benefits throughout the school year. If you have questions at any time, please do not hesitate to ask. Enlightium Academy is dedicated to helping each student succeed and reach his or her potential. We look forward to working with you this year!

Kathleen Thurman
Science Teacher
Enlightium Academy

Kathleen enjoys spending time hiking in the Pacific Northwest with her husband and spending quiet evenings reading. She received her BS in Biology from Washington State University and is passionate about helping students understand the intricacies of God's creation.
