

Stay Connected - Parent Portal!

Dear Family,

Between work, errands, and other activities it can be difficult for parents to always be available to make sure students are working and completing enough assignments on a daily basis. For this reason, Enlightium Academy offers an online parent portal to the parents and guardians of students. The parent portal is an account set up in Ignitia, the curriculum Enlightium students use, to increase transparency and accountability between parents/guardians and students.

The parent portal can be created upon request and can be set up at any time during the school year. There is no extra charge for the portal; I recommend that each parent/guardian in the family have a portal. The parent portal is linked to each of your students' Ignitia accounts and will give you access to view your student's:

- Current courses
- Percentage completed for each class and unit
- Current grade for each course
- Final grade for each lesson, quiz and test
- Completion and due dates for all assignments

Some parents prefer to monitor their student's work through his or her [student portal](#) because of the ability to see the assignments in more detail. If this is your preference, please note that students may be required to change their passwords. In such cases, you should communicate with your student when the password is updated.

If you would like to request a parent portal, have forgotten your login information, or need a student's password reset please email Liya at admissions@enlightiumacademy.com. If you have questions about understanding your student's progress, or would like additional information about it, you can reach our Progress Department by sending an email to progress@enlightiumacademy.com or by calling 509-319-2288, option 3.

Please note that **returning families who have previously used the parent portal** will need to request that EA update their parent portal to reflect the current school year. This can be done by emailing admissions@enlightiumacademy.com and asking for their student's current courses to show in the parent portal account.

Feel free to access the [Student Progress and Accountability](#) page for further information on how we monitor the progress of your student, as well as the resources available to you as a parent.

Sincerely,

Liya Vogin
Admissions

Liya and her husband enjoy spending time outside hiking, camping and exploring. They recently moved to Seattle, WA and love all the new places they now get to visit. Liya occasionally plays viola in her church orchestra and sings in the choir.
