Using the Test Packet

Teaching Bible should not be a mere presentation of facts but a vehicle to reach the hearts and lives of your students with God's Word. The emphasis of the Bible 1 materials is on guiding students to an understanding of their need of salvation and on leading them toward Christlikeness—knowing Christ and having a daily, personal relationship with Him.

These tests provide the teacher with objective items that can serve as part of student evaluation. However, the tests cannot substitute for informal, individual assessment of a student's understanding and application: how much interest he shows in Bible, how well he learns Bible verses, and how well he applies Bible knowledge to everyday life.

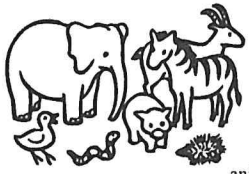

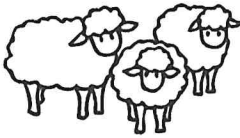

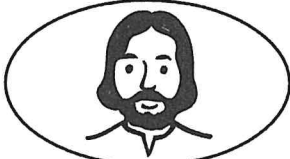

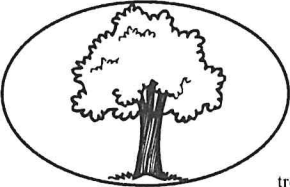

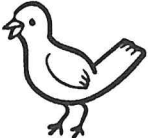

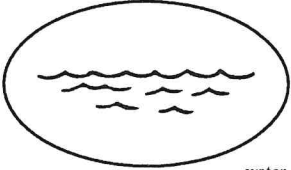

Bible is not a subject that must be graded; the unit tests are optional. The teacher may choose to deviate from a strict percentage for the number of correct answers out of the number of questions. Adjust the tests in accordance with your teaching emphasis and direction by eliminating some items and/or providing additional test items.
