

# IXL TESTING CHECKLIST

---

## BEFORE TESTING

---

After registering, join the IXL group on the Enlightium Parents app.

Ensure that the testing device is fully charged and plugged into a power source. Keep it plugged in during testing.

Have scratch paper available if desired; students may also write on their screen using the pencil tool in IXL if that is preferred

Make sure you have the correct link for IXL: <https://www.ixl.com/signin/enlightium>. The login information will be sent on the day of the test.

## STUDENT TESTING SPACE

---

Create a comfortable testing space that includes a desk or table for the student.

Remove distractions.

Turn off TVs, music, and distracting noises.

Plan for any siblings' activities to be away from the testing space.

## PREPARING THE STUDENT

Ensure that the student is rested and fed.

Provide snacks and water.

Set aside 2-4 hours for the test. The length of time can vary from student to student so it is better to plan for more time. If the test takes more than 3-4 hours to complete, then you are welcome to end the test/your student does not need to keep testing for longer than this.

Plan for restroom breaks. Students are welcome to take breaks during the testing window as needed.

Encourage students to do their best. Remind the student that this test is just to see what they know and will not affect the grades in their classes.

## DURING TESTING

Make sure the student does not have other browsers open.

Have a proctor in the room to make sure the student is following directions and not using any outside sources or help from others. This test is meant to check what the student knows, so having assistance will skew the results.

If the student does not know the answer to a question, have him or her select "I don't know this yet". This will make the results more accurate and will decrease the overall testing time.

## IMPORTANT REMINDERS

This test is meant to help identify areas of strength and growth for students but it does not affect their grades at all.

If your student enjoys the IXL platform, he or she is welcome to keep using IXL as a free supplemental resource while enrolled at Enlightium. Email [ixl@enlightiumacademy.com](mailto:ixl@enlightiumacademy.com) if you would like your student's IXL account to remain active after testing.

Email [ixl@enlightiumacademy.com](mailto:ixl@enlightiumacademy.com) if you have any questions.
