CORE COURSES

In high school, students may not need to take all five core courses each school year. Counselors help students create each year's schedule based on Enlightium's graduation requirements, the student's post-high school plans, and the student's interests.

Course	Typically Taken in Grade 11	Alternative Course Available Per Counselor Approval
Bible	Bible Doctrine	
English	English III	American Literature Creative Writing AP English Language and Composition Various Dual Enrollment courses* William Carey University Dual Enrollment courses*

Offline Physical Education Course

PERSONAL PATHWAY ELECTIVES

Personal Pathway electives are courses that lead to a specific post-high school career or educational outcome. These classes are chosen by the student, based on the student's interest and their post-high school plan.

Personal Pathway electives may include any courses above and beyond a regular credit requirement for a subject, and they are intended to provide a focus for the student's learning.

Example: A student is interested in pursuing engineering after graduating. They have already taken the three credits of math required for an academic diploma, so their fourth credit of math could qualify as a "personal pathway" credit.
