

# New Student Orientation, High School: Getting Started

Welcome to Enlightium (pronounced *En-light-ee-um*) Academy! This short Student Orientation course will help you get to know the basics of online learning at Enlightenment. We'll talk about:

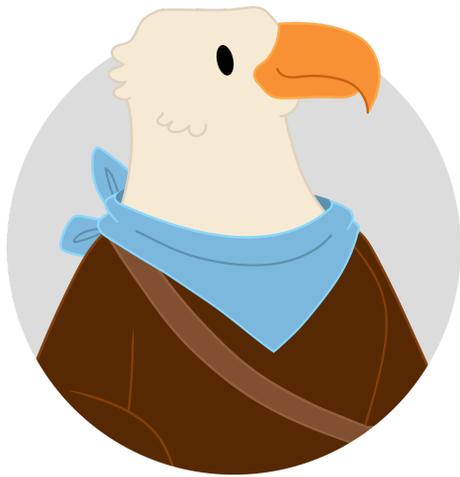

- What Enlightenment is
- Technical information and troubleshooting
- How to get good grades
- How to be a great online student
- How you can meet with other Enlightenment students

**The Student Orientation is required but does not affect your other course's grades or your transcript.** Why is it required? Students who thoroughly review the Student Orientation know what to expect for the school year, where to go for answers, and are able to stay on track to finish on time.

Students who skip or breeze through the Student Orientation typically have issues throughout the school year. They didn't take the time now to learn the basics, so they have a frustrating time learning throughout the year. They may even have to take summer school since they didn't keep up with the schoolwork.

Is a parent or guardian with you?

- **Yes** - Perfect! Please review this Student Orientation with them.
- **No** - That's ok. You can review this on your own. But first, [send them this link](#) and ask them to review the Student Orientation as soon as they can.

**Eleanor the Eagle, an Enlightium  
Parent or Guardian**

**Elwood the Lion, an Enlightium  
Student**

## Enlightium's Mission

The heart of our mission at Enlightenment Academy is to:

1. Bring glory to God in all we do.
2. Serve Jesus Christ wholeheartedly.
3. Share the gospel with Enlightenment students through our Bible-based curriculum and Christian teachers.

## Expected Student Outcomes

Enlightium uses Expected Student Outcomes (ESOs) to determine what you should know by the end of the school year based on your grade level. Enlightenment has Expected Student Outcomes for you to grow:

- Spiritually
- Academically

- Physically
- Emotionally
- Socially

Want to learn more about each ESO? [Visit Enlightium's Knowledge Base](#) and search "Expected Student Outcomes" or "ESO" for more information.
