

For most weeks of the school year, Live Sessions are available to **students in the Silver+, Gold, and Diamond packages**. During Live Sessions, Enlightium teachers discuss course content and answer students' questions. Additionally, students often build relationships with each other at the start and end of Live Sessions.

Students in the Sapphire Live package have real-time instruction with teachers most school days and do not need to attend Live Sessions.

Students in the Bronze and Silver packages have access to Live Session recordings.

Students in the AOP and BJU Press homeschooling program use a different curriculum, so do not have access to Live Sessions.
