

STRUCTURE OF THE LIFEPAC CURRICULUM

The LIFEPAC curriculum is conveniently structured to provide one teacher's guide containing teacher support material with answer keys and ten student worktexts for each subject at grade levels 2 through 12. The worktext format of the LIFEPACs allows the student to read the textual information and complete workbook activities all in the same booklet. The easy-to-follow LIFEPAC numbering system lists the grade as the first number(s) and the last two digits as the number of the series. For example, the Language Arts LIFEPAC at the 6th grade level, 5th book in the series would be LAN0605.

Each LIFEPAC is divided into three to five sections and begins with an introduction or overview of the booklet as well as a series of specific learning objectives to give a purpose to the study of the LIFEPAC. The introduction and objectives are followed by a vocabulary section which may be found at the beginning of each section at the lower levels or in the glossary at the high school level. Vocabulary words are used to develop word recognition and should not be confused with the spelling words introduced later in the LIFEPAC. The student should learn all vocabulary words before working the LIFEPAC sections to improve comprehension, retention, and reading skills.

Each activity or written assignment in grades 2 through 12 has a number for easy identification, such as 1.1. The first number corresponds to the LIFEPAC section and the number to the right of the decimal is the number of the activity.

Teacher checkpoints, which are essential to maintain quality learning, are found at various locations throughout the LIFEPAC. The teacher should check 1) neatness of work and penmanship, 2) quality of understanding (tested with a short oral quiz), 3) thoroughness of answers (complete sentences and paragraphs, correct spelling, etc.), 4) completion of activities (no blank spaces), and 5) accuracy of answers as compared to the answer key (all answers correct).

The self test questions in grades 2 through 12 are also number coded for easy reference. For example, 2.015 means that this is the 15th question in the self test of Section 2. The first number corresponds to the LIFEPAC section, the zero indicates that it is a self test question, and the number to the right of the zero the question number.

The LIFEPAC test is packaged at the center of each LIFEPAC. It should be removed and put aside before giving the booklet to the student for study.

Answer and test keys in grades 2 through 12 have the same numbering system as the LIFEPACs. The student may be given access to the answer keys (not the test keys) under teacher supervision so that they can score their own work.

A thorough study of the Scope & Sequence by the teacher before instruction begins is essential to the success of the student. The teacher should become familiar with expected skill mastery and understand how these grade-level skills fit into the overall skill development of the curriculum. The teacher should also preview the objectives that appear at the beginning of each LIFEPAC for additional preparation and planning.

TEST SCORING AND GRADING

Answer keys and test keys give examples of correct answers. They convey the idea, but the student may use many ways to express a correct answer. The teacher should check for the essence of the answer, not for the exact wording. Many questions are high level and require thinking and creativity on the part of the student. Each answer should be scored based on whether or not the main idea written by the student matches the model example. "Any Order" or "Either Order" in a key indicates that no particular order is necessary to be correct.

Most self tests and LIFEPAC tests at the lower elementary levels are scored at 1 point per answer; however, the upper levels may have a point system awarding 2 to 5 points for various answers or questions. Further, the total test points will vary; they may not always equal 100 points. They may be 78, 85, 100, 105, etc.

My Score

Example 2

Teacher Check

Initial Date

My Score

A score box similar to ex. 1 above is located at the end of each self test and on the front of the LIFEPAC test. The bottom score, 72, represents the total number of points possible on the test. The upper score, 58, represents the number of points your student will need to receive an 80% or passing grade. If you wish to establish the exact percentage that your student has achieved, find the total points of their correct answers and divide it by the bottom number (in this case 72). For example, if your student has a point total of 65, divide 65 by 72 for a grade of 90%. Referring to ex. 2, on a test with a total of 105 possible points, the student would have to receive a minimum of 84 correct points for an 80% or passing grade. If your student has received 93 points, simply divide the 93 by 105 for a percentage grade of 89%. Students who receive a score below 80% should review the LIFEPAC and retest using the appropriate Alternate Test found in the Teacher's Guide.

The following is a guideline to assign letter grades for completed LIFEPACs based on a maximum total score of 100 points.

Example:

- LIFEPAC Test = 60% of the Total Score (or percent grade)
- Self Test = 25% of the Total Score (average percent of self tests)
- Reports = 10% or 10* points per LIFEPAC
- Oral Work = 5% or 5* points per LIFEPAC

*Determined by the teacher's subjective evaluation of the student's daily work.

Example:

| | | | | |
|--------------------|-------|-----------------|---|-----------|
| LIFEPAC Test Score | = 92% | $92 \times .60$ | = | 55 points |
| Self Test Average | = 90% | $90 \times .25$ | = | 23 points |
| Reports | | | = | 8 points |
| Oral Work | | | = | 4 points |

| | | | | |
|--------------|--|--|---|-----------|
| TOTAL POINTS | | | = | 90 points |
|--------------|--|--|---|-----------|

Grade Scale based on point system:

- 100 – 94 = A
- 93 – 86 = B
- 85 – 77 = C
- 76 – 70 = D
- Below 70 = F

TEACHER HINTS AND STUDYING TECHNIQUES

LIFEPAC activities are written to check the level of understanding of the preceding text. The student may look back to the text as necessary to complete these activities; however, a student should never attempt to do the activities without reading (studying) the text first. Self tests and LIFEPAC tests are never open book tests.

Language arts activities (skill integration) often appear within other subject curriculum. The purpose is to give the student an opportunity to test his skill mastery outside of the context in which it was presented.

Writing complete answers (paragraphs) to some questions is an integral part of the LIFEPAC curriculum in all subjects. This builds communication and organization skills, increases understanding and retention of ideas, and helps enforce good penmanship. Complete sentences should be encouraged for this type of activity. Obviously, single words or phrases do not meet the intent of the activity, since multiple lines are given for the response.

Review is essential to student success. Time invested in review where review is suggested will be time saved in correcting errors later. Self tests, unlike the section activities, are closed book. This procedure helps to identify weaknesses before they become too great to overcome. Certain objectives from self tests are cumulative and test previous sections; therefore, good preparation for a self test must include all material studied up to that testing point.

The following procedure checklist has been found to be successful in developing good study habits in the LIFEPAC curriculum.

1. Read the introduction and Table of Contents.
2. Read the objectives.
3. Recite and study the entire vocabulary (glossary) list.
4. Study each section as follows:
 - a. Read the introduction and study the section objectives.
 - b. Read all the text for the entire section, but answer none of the activities.
 - c. Return to the beginning of the section and memorize each vocabulary word and definition.
 - d. Reread the section, complete the activities, check the answers with the answer key, correct all errors, and have the teacher check.
 - e. Read the self test but do not answer the questions.
 - f. Go to the beginning of the first section and reread the text and answers to the activities up to the self test you have not yet done.
 - g. Answer the questions to the self test without looking back.
 - h. Have the self test checked by the teacher.
 - i. Correct the self test and have the teacher check the corrections.
 - j. Repeat steps a-i for each section.
5. Use the **SQ3R** method to prepare for the LIFEPAC test.
 - S**can the whole LIFEPAC.
 - Q**uestion yourself on the objectives.
 - R**ead the whole LIFEPAC again.
 - R**ecite through an oral examination.
 - R**evise weak areas.
6. Take the LIFEPAC test as a closed book test.
7. LIFEPAC tests are administered and scored under direct teacher supervision. Students who receive scores below 80% should review the LIFEPAC using the **SQ3R** study method and take the Alternate Test located in the Teacher's Guide. The final test grade may be the grade on the Alternate Test or an average of the grades from the original LIFEPAC test and the Alternate Test.

GOAL SETTING AND SCHEDULES

Each school must develop its own schedule, because no single set of procedures will fit every situation. The following is an example of a daily schedule that includes the five LIFEPAC subjects as well as time slotted for special activities.

Possible Daily Schedule

| | | | |
|-------|---|-------|---|
| 8:15 | - | 8:25 | Pledges, prayer, songs, devotions, etc. |
| 8:25 | - | 9:10 | Bible |
| 9:10 | - | 9:55 | Language Arts |
| 9:55 | - | 10:15 | Recess (juice break) |
| 10:15 | - | 11:00 | Math |
| 11:00 | - | 11:45 | History & Geography |
| 11:45 | - | 12:30 | Lunch, recess, quiet time |
| 12:30 | - | 1:15 | Science |
| 1:15 | - | | Drill, remedial work, enrichment* |

***Enrichment:** *Computer time, physical education, field trips, fun reading, games and puzzles, family business, hobbies, resource persons, guests, crafts, creative work, electives, music appreciation, projects.*

Basically, two factors need to be considered when assigning work to a student in the LIFEPAC curriculum.

The first is time. An average of 45 minutes should be devoted to each subject, each day. Remember, this is only an average. Because of extenuating circumstances, a student may spend only 15 minutes on a subject one day and the next day spend 90 minutes on the same subject.

The second factor is the number of pages to be worked in each subject. A single LIFEPAC is designed to take three to four weeks to complete. Allowing about three to four days for LIFEPAC introduction, review, and tests, the student has approximately 15 days to complete the LIFEPAC pages. Simply take the number of pages in the LIFEPAC, divide it by 15 and you will have the number of pages that must be completed on a daily basis to keep the student on schedule. For example, a LIFEPAC containing 45 pages will require three completed pages per day. Again, this is only an average. While working a 45-page LIFEPAC, the student may complete only one page the first day if the text has a lot of activities or reports, but go on to complete five pages the next day.

Long-range planning requires some organization. Because the traditional school year originates in the early fall of one year and continues to late spring of the following year, a calendar should be devised that covers this period of time. Approximate beginning and completion dates can be noted on the calendar as well as special occasions such as holidays, vacations and birthdays. Since each LIFEPAC takes three to four weeks or 18 days to complete, it should take about 180 school days to finish a set of ten LIFEPACs. Starting at the beginning school date, mark off 18 school days on the calendar and that will become the targeted completion date for the first LIFEPAC. Continue marking the calendar until you have established dates for the remaining nine LIFEPACs making adjustments for previously noted holidays and vacations. If all five subjects are being used, the ten established target dates should be the same for the LIFEPACs in each subject.

TEACHING SUPPLEMENTS

The sample weekly lesson plan and student grading sheet forms are included in this section as teacher support materials and may be duplicated at the convenience of the teacher.

The student grading sheet is provided for those who desire to follow the suggested guidelines for assignment of letter grades as previously discussed. The student's self test scores should be posted as percentage grades. When the LIFEPAC is completed, the teacher should average the self test grades, multiply the average by .25, and post the points in the box marked self test points. The LIFEPAC percentage grade should be multiplied by .60 and posted. Next, the teacher should award and post points for written reports and oral work. A report may be any type of written work assigned to the student whether it is a LIFEPAC or additional learning activity. Oral work includes the student's ability to respond orally to questions which may or may not be related to LIFEPAC activities or any type of oral report assigned by the teacher. The points may then be totaled and a final grade entered along with the date that the LIFEPAC was completed.

The Student Record Book which was specifically designed for use with the Alpha Omega curriculum provides space to record weekly progress for one student over a nine-week period as well as a place to post self test and LIFEPAC scores. The Student Record Books are available through the current Alpha Omega catalog; however, unlike the enclosed forms these books are not for duplication and should be purchased in sets of four to cover a full academic year.

INSTRUCTIONS FOR BIBLE

The Alpha Omega Curriculum from grades 2 through 12 was written with the daily instructional material written directly in the LIFE PACs. The student is encouraged to read and follow his own instructional material thus developing independent study habits. The teacher should introduce the LIFE PAC to the student, set a required completion schedule, complete teacher checks, be available for questions regarding both subject content and procedures, administer and grade tests and develop additional learning activities as desired. Teachers working with several students may schedule their time so that students are assigned to a quiet work activity when it is necessary to spend instructional time with one particular student.

The Teacher Notes section of the Teacher's Guide lists the required or suggested materials for the LIFE PACs and provides additional learning activities for the students. The materials section refers only to LIFE PAC materials and does not include materials which may be needed for the additional activities. Additional learning activities provide a change from the daily school routine, encourage the student's interest in learning and may be used as a reward for good study habits.

BIBLE 201

Unit 1: Who Am I?

TEACHER NOTES

MATERIALS NEEDED FOR LIFEPAC

Required

(None)

Suggested

- Bible storybook
- Bible dictionary
- Bible commentary
- Bible map
- teaching pictures of the life of Daniel

ADDITIONAL LEARNING ACTIVITIES

Section 1 - God Made Us

1. Discuss the relative concept of size. Have students question their sizes in relationship to animals, buildings, parents, friends, and God.
2. Discuss the limitations of childhood. Name some activities children cannot do as well as adults. Name some special activities for children. The child *is* special.
3. Discuss articles and concepts that a person may or may not outgrow. Discuss the truth that we never outgrow the love of God.
4. Draw pictures of families representing size and structure. Compare the drawings with other students.
5. Study your face in a mirror. How do you see yourself? How do your friends see you?

Section 2 - God Loves Me

1. Discuss heaven, the wonderful place God has prepared for those who love Him.
2. Discuss who and what will be in heaven. Who will not be in heaven?
3. Discuss the concept of death with the class.
4. Make a large mural of what you think heaven will be like. Include people you would expect to see.
5. Students may construct a scroll using brown paper and copy a favorite Bible verse on the scroll.

Section 3 - God Helps Me

1. Discuss these questions with your class.
 - a. How can we be helpful to others?
 - b. How can you help God?
 - c. What special work can you do now?
2. Visit a rest home and share songs, poems, and Bible recitation with the residents.
3. Draw pictures illustrating how you were helpful to others during the week.
4. Think of a helpful project to do tonight in your home.

Section 4 - God Helped Daniel

1. Discuss dreams and their importance to restful sleep.
2. Research dreams in a children's encyclopedia or online.
3. Discuss how we can honor God by what we eat. Emphasize the care of our bodies.
4. Discuss the importance of prayer in Daniel's life, and in our lives.
5. Discuss whether Daniel would have had an effective testimony if he had complained about his situation.
6. On a Bible map, locate Israel and Babylon.
7. Research the law of the Medes and Persians (Esther 1:19 and 8:8).
8. Look in the book of Daniel. Find Daniel's other name.
9. From the letters in the name *King Nebuchadnezzar*, make as many words as you can (examples: head, buzz, red).

Administer the LIFEPAC Test.

The test is to be administered in one session. Give no help except with directions. Evaluate the tests and review areas where the students have done poorly. Review the pages and activities that stress the concepts tested. If necessary, administer the Alternate LIFEPAC Test.
